Müller High Quality 500 kg Hydraulic Telescopic Transmission Jack

This extremely versatile transmission jack features high build quality with an extended height range, making it far easier to unload transmissions from the jack onto the workbench without the unnecessary extra lifting and strain this entails, it has a foot operated pump and release mechanism, leaving the operators hands free to manipulate the transmission.

Part No. TOOL.159

Telescopic Transmission Jack 500 Kg

Benefits:

- Fast up and down travel.
- Hands free operation up and down travel operated by foot peddle.
- Stable frame with 4 swivel ball bearing casters, two of them have brakes
- Very low, which means you can easy remove your transmission or roll it complete, with transmission, underneath your lift.
- 24°- 4 way- adjustable Swivel plate with ball bearings for easy alignment.

Part No. TOOL.160

Transmission Holding Fixture With Base

Mounts on bench with two moveable arms. Head rotates 360 degrees

Fits most Ford transmissions

Part No. TOOL.35

GM Transmission Holding Fixture With Base

Mounts on bench with with full 360 degrees swing and 90 degree locking increments

Fits most GM transmissions

Part No. TOOL.27

GENERAL & SPECIALITY TOOLS

AUTOMATIC CHOICE

GM Transmission Holding Fixture Without Base

Mounts on bench with full 360 degrees swing and 90 degree locking increments

Fits most GM transmissions

Part No. TOOL.28

Holding Fixture Base

Suitable for use with
TOOL.27 & TOOL.28

Part No. TOOL.36

THE AUTOMATIC TRANSMISSION PARTS WAREHOUSE

J-Mar Foot Operated Clutch Spring Compressor

Heavy duty design, for removal of the snap ring inside the clutch drum assembly and rear of case

Part No. TOOL.58

Bench Top Clutch Spring Compressor

Can be mounted onto workbench or into the jaws of a suitable vice

Part No. TOOL.69

GENERAL & SPECIALITY TOOLS

AUTOMATIC CHOICE

Heavy Duty Clutch Spring Compressor

Includes the following accessories:

1. Mercedes rear clutch piston snap ring.
2. Diameter 92 mm for use on Most USA, Japanese and European cars.
3. Diameter 80 mm for use on most USA cars and light trucks.
4. Diameter 70 mm for use on BMW (4HP22 5HP18..), VW, Ford Mondeo (CD4E) etc.

Part No. CPRS.TOOL01

Snappress Clutch Spring Compressor

The open design allows complete visual and tool access to snap ring and clutch plate. Specially designed base and handle to allow shafts to extend through

Part No. TOOL.124

Universal Bearing Puller

This universal puller can grab onto a radius as small as 1.5mm, and will fit into places you could never manage with a standard puller

Part No. UP.TOOL02

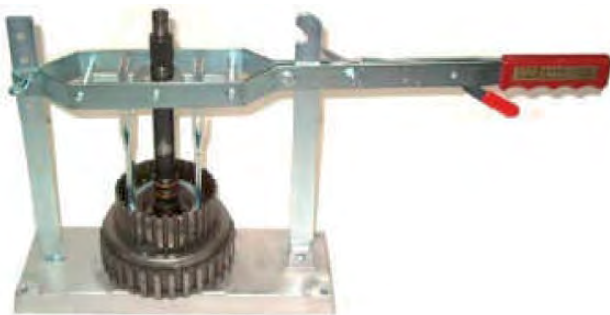

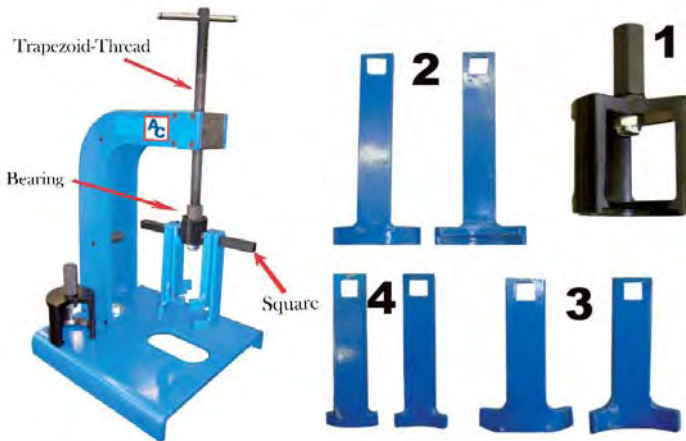

Bearing Puller

The RSG T-5000 ball bearing puller will pull all types of ball bearings with and without snap ring grooves. It comes with interchangeable jaw sets that cover most applications to pull everything from speedometer drive gears to tone wheels on transmission shafts. For those hard-to-reach bearings on long shafts, the kit includes extension legs to get the job done. In fact, you'll be surprised how versatile this puller really is.

Universal Pump Removal Tool

Quickly removes conventional style oil pumps without damage

Part No. TOOL.31

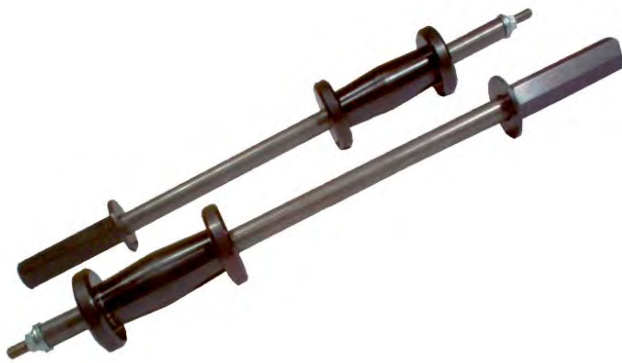

39 Piece Master Bushing Driver Kit

Drives over 200 bushings, comes complete with pegs, pegboard and application chart

Part No. TOOL.24

Heavy Duty Slide Hammer Set

3/8" Threaded Shaft

Part No. TOOL.93

GM, Chrysler Pump Alignment Band

The only tool necessary for complete coverage of GM & Chrysler transmissions

Part No. TOOL.29

GENERAL & SPECIALITY TOOLS

AUTOMATIC CHOICE

Ford Pump Alignment Band

Including alignment of E40D

Part No. TOOL.30

Universal End Clearance Gauge

For use on all automatic transmission front pumps, plus many other uses.

Part No. TOOL.05

Universal Oil Seal Removal Tool

Use with slide hammer

Part No. TOOL.41

Universal Metal Clad Seal Remover

Insert the tip of the tool behind seal and use the leverage to do the work for you.
Eliminates hammering and digging, which can easily damage bores and casings etc.

Part No. TOOL.127

AUTOMATIC CHOICE

Chisel, Bushing Cutter & Seal Remover

- Remove worn seals
- Remove worn bushings
- Forged steel construction for long life

Part No. TOOL.25

GM Snap Ring Removal Tool

Part No. TOOL.26

Snap Ring Pliers (Standard Tip)

The exclusive "V" tip slot design holds the ring and provides positive control, preventing the ring from twisting, flopping or flying

Part No. TOOL.125

'O' Ring Remover / Scribe

Hardened steel tip, ideal for marking metal sheet ect. Can also be used to remove small 'O' Rings and sealing rings from their grooves.

Part No. TOOL.42

GENERAL & SPECIALITY TOOLS

Cooler Line Quick Disconnect Tool

Removes push lock connectors on radiator & transmissions found on Fords 1983 up.

Part No. TOOL.33

Universal Quick Coupler Disconnect Kit

This universal set will disconnect all quick couplers on the market. Different types are used on different applications. Quick couplers can be found on:

- * Oil lines, transmission and engine
- * Fuel lines
- * Air lines
- * Aircon lines

Kit is supplied in a well organized metal box

Part No. TOOL.150

Müller Digital Vernier Caliper

An absolute essential in the modern workshop, for checking critical measurements.

Manufactured by Müller from hardened stainless steel, this digital vernier calliper has an easy-to-read LCD display, imperial / metric conversion and zero setting buttons.

Range: 0-150mm (6in)

Resolution: 0.01mm (0.0005in)

Accuracy: 0.03mm

Supplied in a durable foam lined storage case.

Part No. TOOL.57

Stagger Gauge

Essential for measuring the circumference of tyres on 4x4 vehicles, to be sure that the tyres are of equal size you must measure each tire around the centre of the tread. A stagger gauge will enable you do this with the vehicle on the ground in 5 around minutes

Valve Body Parts Stripping Tray

Don't loose any more valve body parts, prevents valves, springs and small components from rolling away. Lay everything out in order, simplifying reassembly. Has numerous compartments for screws, balls, plates etc.

Part No. TOOL.03

Small Parts Tray

- Has 15 compartments.
- Overall size is 45.70cm x 34.90cm.
- Ideal for keeping all the small components from a job together.

Part No. TOOL.32

Large Drain Pan

SPECIFICATIONS:

- Dimensions: 62.23cm x 88.90cm W/Pouring Spout
- Over 19 Ltr Capacity
- Durable Plastic Material
- Ribbed for Strength

Part No. TOOL.84

Form-A-Funnel Flexible Funnel 14.5" L x 6.5" W

This handy tool guides oil around skid plates and crossmembers right into your oil drain for guaranteed no-mess oil changes! It quickly bends, molds and holds any shape, so you can customize the perfect channel to drain liquids without making a mess. Great for draining oil and other fluids from any type of vehicle or equipment, including cars, trucks, motorcycles, aircraft, boats, forklifts, generators, snow blowers, mowers and more.

Kline Small Parts Basket

Ideal for use in all types of hot wash machines, Solvent machines and dips.

Part No. TOOL.56

Seal-e-Zee Cone System Starter Kit

This package contains all you need to fit pistons using the revolutionary new Cone System. It comprises of 6 various size cones, a 2 Pack of Original & Extreme and an instructional DVD. This DVD contains all the demonstration videos on one disc.

Part No. TOOL.121

Seal-e-Zee Original

The easy to use product for installing difficult seals without damage. The spray modifies the seal, reducing the size for insertion and then expands to its optimum size after a short period. The spray also contains solutions to protect the rubber and further aid installation

Part No. TOOL.109

Seal-e-Zee Extreme

Essential for those extra tight seals! Seal-e-Zee Extreme is a more intense form of Seal-e-Zee Original that does not contain lubricating qualities. For this reason Seal-e-Zee Extreme should only be used after first applying Seal-e-Zee Original

Part No. TOOL.136

Loctite Dielectric Tune-Up Grease 80ml

LOCTITE

Provides a moisture-proof barrier that lubricates and protects electrical connections and wiring from salt, dirt, and corrosion. Extends the life of bulb sockets. Prevents voltage leakage around electrical connections. Required for modern high energy ignition systems.

Suggested Applications:

Marine and automotive electrical connections, spark plug boots, trailer hitches, battery terminals.

Part No. TOOL.158

Universal Drain Plug Kit

Many automatic transmissions are not equipped with a pan drain plug. You can eliminate this problem with this inexpensive drain plug kit. Installation is simple - Just remove the pan, drill a 1/2" round hole and bolt in the drain plug.

Part No. TOOL.153

Superior Bench Buddy™

Remove Small Burrs and Polish Bores - Fast!

Simply insert the steel shaft into a cordless, electric or air powered drill and pull the trigger to clean, polish and remove debris or corrosion inside valve bores, blind holes, tubing and virtually any other hard to reach surface in just a few seconds.

Each nylon bristle of the patent-pending bench buddy brushes are impregnated with a super fine abrasive that works in wet or dry applications and designed for frequent and repeated use.

service bores from 1/4" to 2" (6.35mm to 50.80mm).

Part No. TOOL.156

Superior Accumulator Buddy™

Remove Small Burrs and Polish Bores - Fast!

Impregnated with a special super fine abrasive, the Accumulator Buddy™ brushes easily remove small burrs and polish the inside of accumulator bores with virtually no enlargement of the bore diameter itself.

- Improves the surface finish of a bore by up to 50%
- Restore smooth piston operation in seconds
- Services bores from a 1" to 2" (25.40mm to 50.80mm)

Part No. TOOL.157

Anti-Static Wrist Strap

Prevent static blow-outs!

- Helps prevent electrostatic charge building up when handling Mechatronic valve bodies and other devices prone to electrostatic damage.
- Conductive Pad presses against the skin allowing the charge to leak away to earth.
- Adjustable to ensure a comfortable fit.

Part No. TOOL.215

Blow Gun With 4" Rubber Tip

- Design reduces likelihood of carpal tunnel syndrome.
- Variable flow regulated by trigger.
- Bottom air feed.
- 4" Chrome nozzle with rubber tip.

Part No. TOOL.137

Spare Tips

Part No. TOOL.180

RAPIDFIX- Dual Adhesive System incorporates an instant adhesive and a welding powder.

This combination instantly repairs almost anything

The **RapiFix Dual Adhesive System** has a wide range of applications. It can bond almost any material to itself or to another material.

- High strength bonds in seconds
- Will not dry out in the container
- Bonds instantly to most materials
- **RapidFix** can be filed, ground, drilled and painted instantly
- **RapidFix** Adhesive dries crystal clear

For more information and to view a demonstration video, visit the **RapidFix** website at
